

Swedish Electroforming Technology AB

HYDRA

New Compact DI Water system

- 18 Mohm Quality Process Water
- Nuclear Grade Ion Polisher For Optimal Quality
- UV Filter For Sterile Distribution
- Easy Installation
- Fully Automatic
- Safe and Cost Effective Operation
- Small Footprint
- Expandable for increased capacity

System control: PLC

Capacity: 200 l/h

Tank volume: 300 l

Power: 1,6kW
